
Sual Rescue Team conduct training

In the Philippines, Earthquake is one of the natural disaster which inflict a large damage to Pangasinan 19 years ago. According to experts, it is not strange to have another earthquake anytime. Sual Rescue Team eyed upon Caring for the Future Foundation which located in the outskirts of Sual.

The children were gathered and listen to the Rescue Team, information were detailed but explained in accordance to the children's level of thinking. They were given examples of first aid preparation and taught them what to do in case of these calamities.

Many of us knew how to deal in this situation, we all knew what to do. But without proper guidance from the experts and elders, we panicked a lot. This is the main point of the Rescue Team. Please see pictures at the gallery.
